ABSTRACT

The 1983-1984 edition of the School Profile Report is the third in a series of annual reports produced by the Rochester NY City School District. It documents the trends and statistics of the city's elementary and secondary schools. Profiles are included for 58 elementary, and 14 secondary, schools. Each elementary school profile includes data on student achievement, enrollment, selected student statistics, student permits and mobility, home district and staff profiles, and pupil-teacher and pupil-administrator ratios. The secondary school profiles include data concerning student achievement and enrollment, selected student statistics, student permits and mobility, staff profile, and pupil-teacher and pupil-administrator ratios. The report was designed to highlight broad five year achievement, enrollment, and mobility trends for each school. It also illustrates staffing patterns, staff ratios, and school construction data. The statistical data in this report will be used to evaluate and expand long range planning in the areas of budget, staffing, and program evaluation. (DWH)

INTRODUCTION

The 1983-84 edition of the School Profiles Report represents the third year in an annual reporting procedure which documents trends and statistics of our elementary and secondary schools.

This document is primarily designed to complement, at a building level, other major District reports such as the Three Year Planning Document and BEDS (Basic Educational Data System) Report. It is not intended to be definitive or comprehensive in scope, but rather to highlight, within a relative District context broad trends of five year achievement, enrollment, and mobility for each school. In addition, it shows staffing patterns, staff ratios, and school construction data.

These profiles will be used regularly by building and Central Office personnel to evaluate and expand long-range planning in the areas of budget, staffing, and program evaluation. In previous years it has also been used to document needs and trends by various governmental and community agencies.
